Made of natural latex, also known as caoutchouc, that is harvested from the rubber tree.

Rubber trees remove CO_2 and therefore help to reduce global warming.

Natural rubber latex is a renewable material which is biodegradable.

Highest quality and safety standards ensure that all our latex balloons conform to the EN71 (toy safety) and EN71-12 (Nitrosamines and Nitrosatable Amines) testing.

Insiders®

Anagram's new Insiders® product line consists of two balloons– one inside the other. By creating an exciting 3-D effect, this new format takes the work out of the challenging DIY process of stuffing balloons inside one another with the ease of two inflation points! How is it done? The outer balloon 'shell' is made from a clear plastic film and the inner balloon (made of foil and which looks like 5, smaller individual balloons) are sealed together, both with self-sealing valves.

Merchandising

Merchandising matters! Customers make 70% of balloon purchasing decisions on impulse while in store. Looking to maximize sales? Inflate, inflate, inflate. See our variety of innovative inflated merchandisers and cross merchandising opportunities. Display space at a premium? Our spinner racks and corrugate displays are the perfect solution. Is it a store decoration – or is it for sale? We offer signage and stickers that make availability and pricing clear to consumers.

Remember to use best balloon practices:

- Don't let go! Attach ribbon to a single balloon then secure to a fixed object before inflating balloon to ensure retrieval if accidentally released.
- Uninflated or burst balloons can present a choking hazard. Please supervise your children at all times.
- When inflating with air always use a balloon pump to inflate your balloons. Using a pump removes the risk of bursting and injury.
- Cut the end of the balloon with scissors and dispose of in the bin. Be an environmental hero.

Weights

All balloons should be tied securely to a weight that will keep them from releasing into the air. Be sure to individually tie each balloon to the weight rather than tie them as a group. You can find information about safe balloon practices at anagramballoons.com. Please contact your Anagram sales rep for further details.
