Film Types

-  **HeXL** 20% helium cost savings compared to industry standard 18-inch balloons, but only 4% less surface area. More than \$400 of additional balloon sales.* More than 100 HeXL® balloons per helium tank industry average*.
-  **HeXL** 25% smaller. Save up to \$0.50 in helium per balloon.
- holographic** Holographic films produce beautiful, eye-catching dazzle with their twinkling patterns and color-enhancing effects.
- clear film** Balloons are printed on a clear film.
- multi-film** Balloons feature a combination of clear and metalized films.
- non-foil** Balloons are printed on non-conductive film and provide an exciting alternative to classic foil balloons.

**Created
for air™**

Anagram has always led the industry in innovation, and our ever-expanding line of balloons created specifically to be filled with air are no exception! Look for this icon throughout this catalog to identify Anagram products specifically designed for air inflation, no helium required.

It's easy to be helium free™

Any Anagram balloon can be filled with air and displayed in a variety of ways to create a festive and fun-filled party or event! Here are some ideas to help inspire.

Air-filled fun!
