Latex Balloons from Anagram

a
natural +
responsible
product

Made of natural latex, also known as caoutchouc, that is harvested from the rubber tree.

Rubber trees remove CO₂ and therefore help to reduce global warming.

Natural rubber latex is a renewable material which is biodegradable.

Highest quality and safety standards ensure that all our latex balloons conform to the EN71 (toy safety) and EN71-12 (Nitrosamines and Nitrosatable Amines) testing.

All our facilities conform with all global ethical and safety standards.

Balloons have excellent helium and air retention, reducing gas permeability.

Always weight balloons and dispose of them correctly. This protects the environment and avoids unnecessary litter.

Round Balloons **Pearl**

Create a dreamy, serene ambiance with our Pearl color range! Featuring 13 pearlescent shades, their sheen adds a touch of iridescence, giving the balloons a smooth, lustrous look. This range is also great for double stuffing, as the pearl tones will diffuse light for a softer look.
