- (1) Attach nylon string to wall using 3M Command Hooks.
- (2) Fill balloons with air (NOT helium) using either an air inflator or a hand pump.
- (3) Take two mismatched balloons and twist the two together using white twist ties.
- (4) Take the pair that you twist tied and twist tie them onto the nylon string. Each time you add 2 balloons, move them up the string so that they are nestled tight next to the others.
- (5) After the garland has been built, place the smaller balloons into the gaps and secure to larger balloons using adhesive tape.

***ADHESIVE TAPE RECOMMENDATIONS** for best results affixing balloons to each other or to flat wall surfaces:

Joe's Sticky Stuff A pressure-sensitive adhesive tape recommended by balloon professionals.

3M Command Products Perfect for hanging products from ceiling or walls using hooks or strips.

fill the
ceiling!

what you'll need

balloon quantities will vary depending on the size of your space.
the larger variety of balloons you have, the better it will look!

helium

helium is available at
your local party store

ribbon

balloons, etc.
