

north
star
balloons™

2019 promises to be a very exciting year.

We are off to a great start and are ready to turn over a new page in Northstar's history — a history built upon a fun and energized approach to product development that reflected what you, our customers, were seeing and saying. We appreciate your patience and understanding in 2018, which proved to be more of a transition year than we anticipated as we moved production from Minneapolis, Minnesota, to El Dorado, Kansas, and the balloon business into Pioneer® Balloon Company.

The new 2019 Northstar Balloons™ Catalog has that same trendy look and feel you have come to expect from the Northstar brand. You will see many of the iconic products that reflect its unique personality, along with fun and creative ways to integrate Northstar foils under the Pioneer umbrella. Most exciting of all will be additional trend-setting ideas that are still under wraps as well as brand new Northstar products now under development and scheduled for release later in 2019. And, this is only the beginning.

As always, we are counting on you to share your ideas with us as we grow together. You are our inspiration.

**Warmest good wishes,
The Northstar and Pioneer team**
